EXPANDING ROLES WITH THE UNDP SMALL GRANTS PROGRAM (SGP)

The United Nations Development through Small Grants Program 5 is all but completed now with the last reports and learnings being transferred to planning for the next SGP iteration. Daluhay responded to specific requests to assist with final report documentation involving a wide range of partners including a leadership role in the terminal report writing writeshop and assisting two Peoples Organizations from Isabela Province. Daluhay also had a leadership role in the 1st SGP National Conference as Presenters, Session Chairs and Synthesis Committee Membership. Daluhay's accomplishment within SGP 5 included partnerships with 7 indigenous and fisherfolk organizations as well as the Marine Environment Research Foundation (MERF) Below from left to right are Daluhay's Marilyn Dela Torre, PFETA's (Ilongot Peoples' Organization) Conchita Diguinat, Daluhay's Shan Alejos, DETFAWAI's (Ilongot PO) Patrick Francia, MERF's Mirafior Sanchez, Daluhay's Mark Raquino and Ilongot partner Shekayna Nangitoy. Daluhay is now focused on the Philippine's SGP 7 design as the only NGO involved in the process.

DIPACALAO EGONGOT ICCA: CAPACITY BUILDING & FIELDWORK

In the Aurora province municipality of Dipacalao, the local edition of the Indigenous Community Conservation Area program was put into motion through the partnership with many dedicated local representatives. As a foundational effort, Drs Pajaro and Watts began work with indigenous peoples in the Philippines by facilitating a week long workshop on resource mobilization for the Aurora office of the National (government) Commission on Indigenous Peoples (NCIP). Over ten years has passed since that initial workshop and Daluhay now works with NCIP to conduct in-depth activities such as community validation to insure that projects appropriately engage and support the beneficiaries. This involved community profiling, three dimensional area mapping, forest resource inventory and participatory coastal resource assessment.

Three Dimensional Mapping

Community profiling and socio-economic surveying

Forest Resource Inventory

Participatory Coastal Resource Assessment

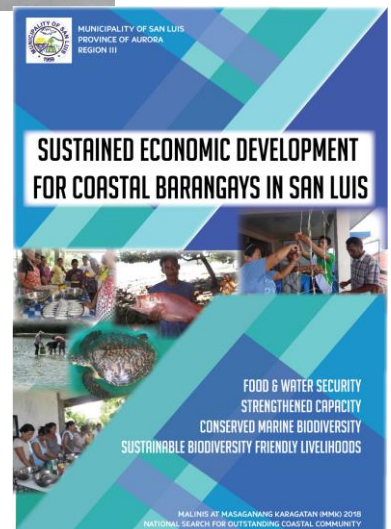

A MUNICIPAL MODEL FOR SUSTAINABILITY & DEVELOPMENT

Daluhay has worked directly with the Municipality of San Luis since the NGO was formed and continues to expand a partnership that shows results for the people and the environment. To kick off of the Rainforest Trust project collaboration has created the Indigenous Communities saving the Philippine Eagle movement in San Luis. The project provides capacity for Dumagat and Alta Indigenous Peoples to protect the PhilippineEagle and their Ancestral Lands.

Daluhay Continues to support the Local Government of San Luis on Coastal Resource Management as a model of collaboration. Recently Daluhay helped with the documentation and preparation for the Malinis and Masagang Karagatan (MMK), a reward system for coastal municipalities for effective implementation of coastal resource management. San Luis LGU won the 3rd place in Region 3 for their MMK.

DALUHAY BOARD OF DIRECTORS

Paul D. Watts – President & Newsletter Editor
 Raymond B.D.Pajaro – Founding Board Member and Chair
 Purisima P. Juico - Founding Member and Secretary/Treasurer
